Professional Summary

Frontend Developer specializing in **React**, **TypeScript**, and **Next.js**, building accessible, high-performance applications with **state management** (Zustand/Redux), **API integrations**, and **WCAG**-compliant UI. Delivered outcomes including **+20% booking conversion**, **40% load time**, and **5+ admin hours/week saved** via automation and performance optimization. Strong in **SSR/SSG**, **code splitting**, **caching** (TanStack Query), **testing** (Jest/RTL), and **CI/CD** (GitHub Actions).

Skills

Core: React.js, TypeScript, Next.js, Zustand/Redux, Tailwind CSS, SCSS/SASS, Accessibility (WCAG/ARIA), REST APIs

Proficient: TanStack Query, Axios/Fetch, React Testing Library, Jest, GitHub Actions (CI/CD), Appwrite, Twilio, n8n (automation)

Familiar: GraphQL, Recharts, Shadcn UI, Webpack/Vite, Lighthouse/Core Web Vitals

- **Architecture/Performance:** SSR/SSG, code splitting, lazy loading, caching, Core Web Vitals, Lighthouse, responsive/mobile-first design
- **Collaboration:** Git-based workflow, code reviews, agile delivery, stakeholder communication

Projects

Resumind — AI Resume Analyzer

Completed Jul 2025

- Built a client-side **AI** resume analyzer with **React**, **TypeScript**, and **Zustand**, providing real-time feedback that increased interview callbacks by **~20%** for **200+ users**.
- Implemented **ATS keyword extraction**, section parsing, and scoring logic; added **accessibility** cues and robust error states for an inclusive UX.
- Established **CI/CD** with GitHub Actions and **unit testing** (**Jest**/RTL) to safeguard critical flows and maintain reliability.

Carepulse — Hospital Management Web App

Completed Apr 2025

- Engineered **role-based dashboards** and secure auth (**Appwrite**) using **React/TypeScript/Zustand**, improving admin efficiency by **~35%** across **100+ daily records**.
- Automated patient notifications via **Twilio** (SMS/email), reducing follow-up delays by **~30%**; upheld **WCAG** patterns and **Lighthouse** scores ≥ 95 .

Klimate — Modern Weather App

Completed Feb 2025

- Implemented **TanStack Query** caching, parallel requests, and error boundaries to cut **LCP** by **~40%** and improve reliability.
- Visualized temperature/humidity/wind with **Recharts**; supported **100+ monthly users** with **SSR/SSG** and responsive UI.

Experience

Perfect Health Care

Oct 2024

Frontend Developer (React/TypeScript, Freelance)

Remote

- Delivered a mobile-first site with automated appointments (**Formspree**) that increased inquiries by ~**25%** and saved **5+ admin hours/week**.
- Maintained **Lighthouse** scores ≥ 95 through **responsive design**, **ally** patterns, and performance audits.

TravelwithTehseen

Sep 2024

Frontend Developer (React/Zustand, Freelance)

Remote

- Built a **React/Zustand** booking portal that improved booking conversion by ~**20%** and reduced bounce by ~**15%**.
- Shipped **GSAP** animations, **PWA** tweaks, and iterative UX improvements using a Git-based release workflow.

Education

Sheryians Coding School (Remote Bootcamp)

Jan 2025 – Present

Full Stack Web Development

- **Frontend Completed (Jan 2025 – Aug 2025):** React, Next.js, state management, testing, deployment.
- **Backend Ongoing (Aug 2025 – Present):** Node.js, Express, MongoDB, REST API design.

Govt Higher Secondary School Zoohama

Graduated May 2025

Class 12, Medical Stream (88.1%)

Continuous Learning

- **Backend (Sheryians):** Node.js, Express, MongoDB, authentication, API security; ongoing practice via mini-services.
- **Generative AI (Sheryians):** **LangChain** workflows, prompt engineering, RAG patterns, evaluation; applied to resume analysis concepts.
- **DevOps & Automation (Sheryians):** CI/CD (**GitHub Actions**), environment secrets, basic Docker; **n8n** automation workflows for integrations and notifications.
- **DSA in JavaScript (Sheryians):** time/space complexity, arrays/strings, stacks/queues, trees/graphs practice.
