Summary

Frontend Developer / React Developer focused on **high-performance, accessible web applications** using **React, Next.js, TypeScript, Tailwind CSS, shadcn/ui** and modern state management. Experienced in building **single-page applications (SPA)**, **SSR/ISR Next.js apps**, and **responsive user interfaces** with strong emphasis on **SEO, WCAG accessibility, REST API integration, and frontend performance optimization**. Proven impact improving **Core Web Vitals, Lighthouse scores**, and business metrics across production projects.

Technical Skills

JavaScript (ES6+), TypeScript, React, Next.js, HTML5, CSS3, Tailwind CSS, shadcn/ui, React Hooks, State Management (Redux, Context API, Zustand familiarity), Design Systems, Component-driven Development, SSR/ISR, Routing, Forms, Responsive Design, Cross-browser Compatibility, Git, GitHub, Vercel, Netlify, Postman, REST APIs, Jest, React Testing Library, Figma, ESLint, Prettier, API error handling, client/server-side caching patterns, performance profiling, monitoring, Collaboration, Agile/Scrum, Communication, Code Reviews, Problem Solving

Experience

Frontend Intern (React / Next.js)

Nov 2025 – Present

Interpe — Jaipur, India (Remote)

Fintech SaaS platform improving loan management workflows

- Built and shipped **12+ pixel-perfect, responsive UI components** with React, Next.js, Tailwind, and shadcn/ui, improving UI consistency and **reducing CSS duplication by 35%**.
- Integrated **RESTful APIs** with loading states, skeletons, and optimistic UI, **decreasing perceived wait time by 25%** and **reducing error retries by 18%** across core user flows.
- Improved **Core Web Vitals (CLS 0.11 → 0.03, LCP 28%)** via image optimization, preloading, and route-level code splitting, raising **Lighthouse Performance from 67 to 92**.

Freelance Frontend Developer

2024 – 2025

Remote

Websites and landing pages for SMBs and creators

- Delivered **two production React / Next.js sites end-to-end** (requirements → deploy) with responsive UI, SEO, analytics, and documentation; **reduced bounce rates by 15–22%**.
- Implemented **design-system driven UI components** and **WCAG-compliant patterns**, increasing accessibility scores from **85 → 100** and **reducing frontend rework by 30%**.
- Set up **CI/CD pipelines on Vercel and Netlify** with custom domains and redirects; **improved build times by 40%** and reduced manual deployment errors to **near-zero**.

Projects

AI Resumind | Next.js, React, TypeScript, Tailwind, shadcn/ui | [Live](#)

Jun 2025 – Oct 2025

- **AI resume analysis platform** used by **200+ users** for **ATS scoring, resume parsing**, and rewrite suggestions, exporting recruiter-friendly summaries tailored to job descriptions.
- Implemented **Next.js server actions** and **streaming responses** for key API calls, reducing **TTFB for critical flows by 35%** on Vercel Edge infrastructure.
- Added **structured metadata, Open Graph tags**, and image optimization, improving **Lighthouse SEO from 84 to 98** and increasing indexed pages by **+60%**.

CarePulse | Next.js, React, Appwrite, Tailwind | [Live](#)

Mar 2025 – Jun 2025

- **Healthcare management web app** for appointments and role-based dashboards (patients, clinicians, admin) built with **Next.js SSR** for reliability and fast initial load.
- Built **accessible, responsive UI components** and multi-step form flows, **decreasing form drop-off by 18%** and **page load time by 32%** across key routes.
- Designed and integrated **RESTful endpoints** for records and notifications; added **monitoring and error telemetry** to improve **mean time to resolve (MTTR)** by 25%.

Awards & Certifications

- **MERN Stack Web Development — Sheryians Coding School (2025)**: Project-based training in React, Next.js, Node.js, Express, MongoDB, REST APIs, and deployment. [Credential Link](#)

Education

Web Development (MERN, DSA, Gen AI)

Jan 2025 – Sep 2025

Sheryians Coding School

Frontend focus: React, Next.js, TypeScript, Tailwind
